About Me

Computer Science student specializing in AR/VR, IoT, and software development. Proficient in Python, JavaScript, and data analysis tools. Built real-time IoT projects with dashboard integration. Eager to contribute technical skills and grow in a dynamic IT environment.

Education

Jeppiaar Institute of Technology 2023 – 2027
Bachelor of Engineering in Computer Science and Engineering
CGPA: 7.67

P.A.V.B Higher Secondary School
Higher Secondary Education (12th Grade) 2023

Skills

Languages: Python, JavaScript, C
Data Analysis & ML: NumPy, Pandas, Matplotlib, Machine Learning
Data Visualization: Excel, Power BI, Tableau
Web: HTML, CSS
Database: MongoDB, MySQL
Core Concepts: Object-Oriented Programming (OOP), Data Structures (Basics)

Projects

IoT Tracker System
- Architected a smart lorry monitoring system using IoT sensors and GPS modules for real-time tracking.
- Integrated backend database and cloud services for scalable data processing and remote access.
- Designed event-driven alert systems using geofencing and anomaly detection to prevent theft scenarios.

Student Performance Analysis using NumPy & Pandas
- Analyzed large student datasets to identify performance trends and patterns.
- Applied data preprocessing and aggregation techniques to compute academic metrics.
- Visualized insights using Matplotlib for data-driven decision making.

AR Room Target
- Developed an AR-based room target detection system using Unity and Vuforia for real-time object tracking and 3D visualization.
- Implemented interactive gesture controls and image-based tracking to accurately overlay virtual objects on real-world surfaces.

Certifications

- **Python for Data Science** – Coursera 2025
- **Machine Learning Fundamentals** – Udemy 2025
- **Data Analysis with NumPy & Pandas** – Coursera 2025
- **Full Stack Web Development (HTML, CSS, JavaScript)** – Internshala 2024
- **Introduction to IoT** – NPTEL 2024

Achievements

- Participated in Tamil Nadu Global Startup Summit (TNGSS) 2025 at Codissia Trade Fair Complex, Coimbatore.
- Won 2nd Prize in Game Development at Kalasalingam Academy of Research and Education.
